SCOPE OF WORK

YH15-0011

Specialty Pharmacy Services for Anti-Hemophilic and Other Blood Disorder Medications

1. AHCCCS OVERVIEW

AHCCCS is the single state Medicaid agency for the State of Arizona. In that capacity it is responsible for operating the Title XIX and Title XXI programs through the State's 1115 Research and Demonstration Waiver, which was granted by the Centers for Medicare and Medicaid Services (CMS), U.S. Department of Health and Human Services. As of July 1, 2014, AHCCCS provides coverage to approximately 1.5 million members in Arizona.

Over 81% of the AHCCCS program's expenditures in SFY 2014 were through managed care programs. AHCCCS contracts with Managed Care Organizations (MCO's) that are responsible for providing Acute, Long Term Care, and Behavioral Health Services. A list of contracted plans can be found here: <http://www.azahcccs.gov/applicants/healthplans/available.aspx>

The program has a total fund budget for FY 2015 of approximately \$10.96 billion. AHCCCS has over 55,000 active providers in Arizona such as individual medical and behavioral health practitioners, therapy disciplines, institutions, durable medical equipment companies and transportation entities. Additional information may be found on the AHCCCS website reporting page: <http://www.azahcccs.gov/reporting>.

2. PROJECT OR SERVICE OVERVIEW/BACKGROUND

The purpose of this Request for Proposal (RFP) is to solicit proposals from experienced and qualified offerors to provide Specialty Pharmacy Services for Medicaid members living with bleeding/blood disorders. Services provided to this Medicaid population will include the provision of anti-hemophilic agents, coagulation products and supplies, the disposal of medications, and the coordination of these services.

AHCCCS seeks proposals from Offerors who have demonstrated competency as a provider of specialty pharmacy services and has experience in disease state management. Offerors are encouraged to amplify program objectives to highlight innovative practices in providing quality, cost-effective pharmaceutical care.

This proposal is intended as a statewide initiative to provide improved patient monitoring and care coordination and achieve greater cost-efficiencies in the purchase of medically necessary anti-hemophilic and other blood disorder medications, related products and supplies.

The Contractor will be required to purchase all anti-hemophilic and other related blood disorder medications under the 340B Drug Pricing Program.

The 340B Drug Pricing Program is expected to offer the lowest cost for pharmaceuticals necessary for the treatment and management of bleeding and other blood disorders. The 340B program was established as part of the Veterans Health Care Act of 1992. Section 340B of U.S. Public Law 102-585 limits the cost of drugs to federal purchasers and to certain grantees of federal agencies known as "340B qualified entities." The Office of Pharmacy Affairs (OPA) of the Health Resource and Services Administration (HRSA) under the U.S. Department of Health and Human Services (HHS) administers the program.

Offeror's that do not qualify as a 340B entity may choose to explore opportunities in conjunction with 340B entities under OPA-approved arrangements with qualified entities to access 340B pricing.
